## INTRODUCTORY NOTE.

The publication of this monthly bulletin has been authorised by His Highness' Government *vide* Special Secretary's No. B-9/Misc/43, dated 19th May 1943. The statements recorded herein do not in any way convey Government pronouncements on the concerned topics.

The second issue of the bulletin marks an improvement over the last one since a few statements have been added and comparisons of statistical data with the previous month have been made. During the first year of its issue comparisons of statistics compiled each month will be made with the previous month and not with the corresponding month of the previous year, as it ought to be done. The latter is not possible since monthly records of the previous year are not obtainable. In this publication some of the statistics may be incomplete or provisional and will be revised on receipt of more complete or reliable data from the reporting authorities.

While the Department takes this opportunity of expressing its gratitude to those Government officers who have offered us unstinted co-operation and help in the compilation of the bulletin, we cannot help reminding others of the duty which they owe towards us. The plan of our work will remain incomplete as long as the latter will not supply the requisite data, intended to be incorporated in this publication.

(Sd.) R. K. BHAN, M. A., PH. D. ECON. (LONDON),

SRINAGAR : } DIRECTOR STATISTICS AND ECONOMIC INTELLIGENCE,  
26th September 1943. } *His Highness' Government, Jammu and Kashmir.*

1. The first part of the report deals with the general situation of the country and the position of the various groups. It is a very general and superficial treatment of the subject, but it gives a good impression of the general state of affairs. The second part of the report deals with the specific details of the situation. It is a more detailed and more accurate treatment of the subject, but it is also more difficult to read. The third part of the report deals with the conclusions of the study. It is a very brief and concise summary of the findings of the study, but it is also very clear and easy to understand. The fourth part of the report deals with the recommendations of the study. It is a very brief and concise summary of the recommendations of the study, but it is also very clear and easy to understand.

2. The second part of the report deals with the specific details of the situation. It is a more detailed and more accurate treatment of the subject, but it is also more difficult to read. The third part of the report deals with the conclusions of the study. It is a very brief and concise summary of the findings of the study, but it is also very clear and easy to understand. The fourth part of the report deals with the recommendations of the study. It is a very brief and concise summary of the recommendations of the study, but it is also very clear and easy to understand.

Note.—Publication of Meteorological Reports has been allowed with the following limitations:—

- (i) Rainfall statistics to be incorporated with a lag of one week.
- (ii) Other Meteorological data to be given for isolated and scattered stations and not for the State as a whole.

## WEATHER AND CROP REPORTS.

*First Fortnight of Jeth, 2000.*

(i) Rains were reported from every district. They were very heavy particularly in the Southern District of Kashmir Province.

(ii) Agricultural operations—

Kashmir Province: Heavy rains interfered with the sowing of paddy seeds. Maize, pulses and ground-nuts were sown and vegetables transplanted.

Jammu Province: Wheat was being thrashed and land prepared for sowing of paddy and maize.

(iii) Prospect and probable out-turn of crops—

Kashmir Province: The condition of the standing crop was reported to be normal, but the rains damaged the oil-seed crop and cherry crop.

Jammu Province: The expected out-turn of crops in Kandi Illaqa was average and in irrigated tracts below the average.

(iv) Serious damage to crops: None reported excepting to cherries due to incessant rains.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Failure of pasturage or irrigation water: None reported.

(vii) Retail prices of food crops: The food crops were reported to retain their previous high level.

(viii) Public health: Reported satisfactory.

*Second Fortnight of Jeth, 2000.*

(i) Rainfall: Rains were reported throughout the districts.

(ii) Agricultural operations—

Kashmir Province: Vegetable seedlings were being transplanted, while turnips, peas etc, were being harvested for seed. Rape was harvested and paddy sown.

(iii) Prospect and probable out-turn of crops: The average out-turn from standing crops was reported to be good except for vegetables in the suburbs of Srinagar where high water level submerged the vegetable fields.

(iv) Damage to crops—

Kashmir Province: Rains interfered with early sowing of paddy. Vegetables were reported to be affected by cut-worms.

Jammu Province: None reported except in the case of Sugar cane which was attacked by Sugar cane top-borer.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Irrigation water and fodder: Reported sufficient.

(vii) Retail prices of food grains: These retained the high level of the previous fortnight.

(viii) Public health: Reported satisfactory.

(ix) Fruits and Vegetables: In Kashmir the straw-berry crop got exhausted. Early crop of cherries also finished during the fortnight. Green peas were being exported. The out-turn of standing crop (fruit) was expected to be good. Knol Khol, though damaged by rains, came in the market.

†Distinct from that of Jammu.

Sugar, Salt and Kerosene oil, being controlled commodities, are sold at Controlled rates, and are given in a separate statement.  
NOTE—Prices prevalent during the 2nd halves of the months of Baisakh and Jeth have been taken into account.

The price level in the State on the whole stood at a higher level during Jeth 2000, while it had a tendency towards a fall in British

India.

The former is chiefly due to

- (1) Withdrawal of Control Order in Jammu Province.
- (2) Exhaustion of the old stock aggravated by the cornering habits of the stockists.
- (3) Interference of incessant rains with agricultural operations.

(a) Includes sufficient proportion of Puda and Dopost.

\*Includes large quantities of Puda and Dopost.

†Value of Jammu Silk only.

£The value of Iranian Silk is paid to the Government of India and only reeling charges at Rs. 1,675 per ton of cocoons are credited to this Department.

**NOTE.**—(i) Average quantity produced per maund of cocoons in Jammu was greater in Jeth than that of Paisakh while in Kashmir the conditions were different. This was probably due to the topographical and other conditions.

(ii) The total quantity of indigenous silk production was greater in Jammu than in Kashmir. There being greater demand for parachute cloth by the Supply Department Government of India, Iranian Silk production received a greater impetus in the latter Province.

**ABBREVIATIONS USED.**—S=Spinners. K=Knotters. C=Cooks. M=Murani Houses. Mac=Machinery attendants.

(2) Government Silk Weaving Factory, Rajbagh Srinagar.

( 16 )

Serial No	Particulars of each Commodity.	Month.	Production (quantity).	Sale price.	Total sale proceeds.	No. of persons employed (a) Office establishment. (b) Wage-earners.	Rate of wages.	REMARKS.
		Jeth	11,802 yds.	This cloth being booked by the Government of India, is not available for open sale.	Processing charges only realized.	(a) 23 (b) 265	Rs. a. p. .. 0 1 6 per yard. Doubblers and Winders 0 8 0 per yard a day. Twisters .. 0 6 7 per day. Warpers .. Re. 1 to Rs. 1-4-0 per day. Drafters .. Annas 10 to annas 14 a day. Finishers .. Annas 12 to Re. 1 a day. Cleaners .. Annas 8 to annas 10 a day. Miscellaneous .. Annas 8 to Rs. 1-4--0 a day according to nature of work.	
1	Parachute Cloth	Baisakh	10,099 yds.	"	"	"	"	
		Jeth	103 "	Rs. 7-8-0, Rs. 6-10-0 and 4-12-0 per yard.	Rs. 20,987-11-6	"	"	
2	Other fabrics ..	Baisakh	1,471 "	"	Rs. 12,148-0-0	"	"	

NOTE.—The out-turn of parachute cloth during Jeth has increased while that of other fabrics has decreased, indicating greater demand for the former for war purpose. Sale proceeds from other fabrics during Jeth are much greater than those in the month of Baisakh even though the out-turn in the latter month is less. This is probably due to the realization of outstanding bills.

	Total	..	..	..	..	3,48,684	11	58,432	0

NOTE —The value of exports during Jeth 2000 is lower than that for Baisakh 2000 but duty realised in Jeth 2000 is greater than in Baisakh 2000. This is mostly due to the defective system of recording export statistics by the Customs Department. Attempts will be made to get the system improved.

with that for the month of Baisakh 2000.

## INTRODUCTORY NOTE.

The publication of this Monthly Bulletin has been authorised by His Highness' Government *vide* Special Secretary's No. B-9/Misc./43 dated 19th May 1943. The statements recorded herein do not in any way convey Government pronouncements on the concerned topics.

In this issue a few additional Statements have been incorporated, these pertain to the Vital Statistics of the State, districtwise and trade with Central Asia.

In absence of Monthly records of data pertaining to the last year comparisons of Statistics during this month has been made with those of the previous one and not with the corresponding one of the last year, as it should have been done. In this publication some of the Statistics may be incomplete or provisional and will be revised on receipt of more complete or reliable data from the reporting authorities.

While the department takes this opportunity of expressing its gratitude to those Government officers who have offered us unstained co-operation and help in the compilation of the Bulletin, we again take this opportunity of reminding others of the duty they owe towards us. The plan of our work will remain incomplete as long as the latter will not supply the data essential for incorporation in this publication.

## WEATHER AND CROP REPORTS.

*First Fortnight of Sawan, 2000.*

(i) Rainfall : The weather was uncertain. Rains were reported throughout the district.

(ii) Agricultural operations—

In Jammu Province paddy was transplanted, maize hoed and vegetables seeds sown. In Kashmir Province weeding of rice lands and hoeing of maize continued. Rice started ripening and pulses made a good growth.

(iii) Prospects and probable out-turn of harvests -  
Reported normal.

(iv) Serious damage to crops : None reported.

(v) Condition of agricultural livestock : Reported satisfactory.

(vi) Failure of irrigation water and pasturage : None reported.

(vii) Retail prices : Retained the high level of the previous fortnight.

(viii) Public health : Reported satisfactory.

(ix) Fruits and vegetables :—Peach crop failed, particularly, plums and lemons, Knolkhol, cabbages, brinjals, tomatoes, Karelas and Ghia Kadus were in the market.

Improved seeds of European type of vegetables were exported from Srinagar in large quantities.

*Second Fortnight of Sawan, 2000.*

(i) Rainfall : Reported sufficient.

(ii) Agricultural operations—

In Kashmir, hoeing of maize and ploughing of follow land for Rabi sowing was done. In Jammu no operations were performed due incessant rains.

(iii) Prospects and probable out-turn of crops : The condition of standing crops was normal. In Jammu Province incessant rains damaged the maize crop at several places.

(iv) Serious damage to crops : None reported, except to maize crop in Jammu at several places due to rains.

(v) Condition of agricultural livestock : Reported normal.

(vi) Irrigation water : Reported sufficient.

(vii) Public health : Reported normal.

(viii) Retail prices : Same as in previous fortnight.

(ix) Fruits and vegetables : Fruit crop was scanty. William pears and apples were despatched to British India. Plums and peaches were a failure. Walnut crop was abundant. Vegetable crop was normal.

## INTRODUCTORY NOTE.

The publication of this monthly bulletin has been authorised by His Highness' Government *vide* Special Secretary's No. B-9/Misc/43, dated 19th May 1943. The statements recorded herein do not in any way convey Government pronouncements on the concerned topics.

The second issue of the bulletin marks an improvement over the last one since a few statements have been added and comparisons of statistical data with the previous month have been made. During the first year of its issue comparisons of statistics compiled each month will be made with the previous month and not with the corresponding month of the previous year, as it ought to be done. The latter is not possible since monthly records of the previous year are not obtainable. In this publication some of the statistics may be incomplete or provisional and will be revised on receipt of more complete or reliable data from the reporting authorities.

While the Department takes this opportunity of expressing its gratitude to those Government officers who have offered us unstinted co-operation and help in the compilation of the bulletin, we cannot help reminding others of the duty which they owe towards us. The plan of our work will remain incomplete as long as the latter will not supply the requisite data, intended to be incorporated in this publication.

*Note.*—Publication of Meteorological Reports has been allowed with the following limitations:—

- (i) Rainfall statistics to be incorporated with a lag of one week.
- (ii) Other Meteorological data to be given for isolated and scattered stations and not for the State as a whole.

## WEATHER AND CROP REPORTS.

*First Fortnight of Jeth, 2000.*

(i) Rains were reported from every district. They were very heavy particularly in the Southern District of Kashmir Province.

(ii) Agricultural operations—

Kashmir Province: Heavy rains interfered with the sowing of paddy seeds. Maize, pulses and ground-nuts were sown and vegetables transplanted.

Jammu Province: Wheat was being thrashed and land prepared for sowing of paddy and maize.

(iii) Prospect and probable out-turn of crops—

Kashmir Province: The condition of the standing crop was reported to be normal, but the rains damaged the oil-seed crop and cherry crop.

Jammu Province: The expected out-turn of crops in Kandi Illaqa was average and in irrigated tracts below the average.

(iv) Serious damage to crops: None reported excepting to cherries due to incessant rains.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Failure of pasturage or irrigation water: None reported.

(vii) Retail prices of food crops: The food crops were reported to retain their previous high level.

(viii) Public health: Reported satisfactory.

*Second Fortnight of Jeth, 2000.*

(i) Rainfall: Rains were reported throughout the districts.

(ii) Agricultural operations—

Kashmir Province: Vegetable seedlings were being transplanted, while turnips, peas etc, were being harvested for seed. Rape was harvested and paddy sown.

(iii) Prospect and probable out-turn of crops: The average out-turn from standing crops was reported to be good except for vegetables in the suburbs of Srinagar where high water level submerged the vegetable fields.

(iv) Damage to crops—

Kashmir Province: Rains interfered with early sowing of paddy. Vegetables were reported to be affected by cut-worms.

Jammu Province: None reported except in the case of Sugar cane which was attacked by Sugar cane top-borer.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Irrigation water and fodder: Reported sufficient.

(vii) Retail prices of food grains: These retained the high level of the previous fortnight.

(viii) Public health: Reported satisfactory.

(ix) Fruits and Vegetables: In Kashmir the straw-berry crop got exhausted. Early crop of cherries also finished during the fortnight. Green peas were being exported. The out-turn of standing crop (fruit) was expected to be good. Knol Khol, though damaged by rains, came in the market.

Price quotations of Chief Food grains at Srinagar and Jammu Markets for the month of Jeth 2000, as compared with Baisakh, 2000. Comparison with some of the important Stations in British India during the corresponding May-June 1943 has been drawn up.

†Distinct from that of Jammu.

Sugar, Salt and Kerosene oil, being controlled commodities, are sold at Controlled rates, and are given in a separate statement.

Note—Prices prevalent during the 2nd halves of the months of Baisakh and Jeth have been taken into account.

The price level in the State on the whole stood at a higher level during Jeth 2000, while it had a tendency towards a fall in British

India. The former is chiefly due to

- (1) Withdrawal of Control Order in Jammu Province.
- (2) Exhaustion of the old stock aggravated by the cornering habits of the stockists.
- (3) Interference of incessant rains with agricultural operations.

(a) Includes sufficient proportion of Puda and Dopost.

\*Includes large quantities of Puda and Dopost.

†Value of Jammu Silk only.

£The value of Iranian Silk is paid to the Government of India and only reeling charges at Rs. 1,675 per ton of cocoons are credited to this Department

**NOTE.**—(i) Average quantity produced per maund of cocoons in Jammu was greater in Jeth than that of Paisakh while in Kashmir the conditions were different. This was probably due to the topographical and other conditions.

(ii) The total quantity of indigenous silk production was greater in Jammu than in Kashmir. There being greater demand for parachute cloth by the Supply Department Government of India, Iranian Silk production received a greater impetus in the latter Province.

**ABBREVIATIONS USED.**—S=Spinners. K=Knotters. C=Cooks. M=Murani Houses. Mac=Machinery attendants.

		Jeth	103 "	Rs. 7-8-0, Rs. 6-10-0 and 4-12-0 per yard.	Rs. 20,987-11-6	"	"			
		Baisakh	1,471 "	"	Rs. 12,148-0-0	"	"			

NOTE.—The out-turn of parachute cloth during Jeth has increased while that of other fabrics has decreased, indicating greater demand for the former for war purpose. Sale proceeds from other fabrics during Jeth are much greater than those in the month of Baisakh even though the out-turn in the latter month is less. This is probably due to the realization of outstanding bills.

ELECTRIC ENERGY GENERATED AND SOLD.

5	Jowar and Bajra	..	..	..	..	..	..
6	Grams and Pulses	748	22	2,315	0	5,466	12
7	Other sorts of food grains	564	17	..	..	5,764	12
8	Vegetables :—						
	(a) Potatoes	476	20	..	..	1,528	8
	(b) Other sorts	1,009	9	1,423	0	5,585	14
9	Fruits :—						
	(a) Fresh	1,227	25	2,323	0	8,310	1
	(b) Dry	629	39	1,674	0	8,268	2
10	Silk and silk manufactures	427	9	90	0	9,535	0
11	Other articles of food	184	37	152	0	4,145	4
12	Oils	4	4	..	..	182	12
13	Oil-seeds	508	20	..	..	5,083	4
14	Drugs and medicines	2,574	7	144	0	37,463	10
15	Cotton and Cotton manufactures	14	26	..	..	1,066	0
16	Wool and Woollens	104	27	554	0	3,864	4
17	Tobacco	8	15	..	..	106	0
18	Hides and Skins	778	5	1,132	0	15,728	8
19	Metals and metal manufactures	97	20	15	0	1,490	0
20	Leather wrought and unwrought	147	34	..	..	4,551	12
21	Wood and timber manufactured and un-manufactured	4,696	12	..	..	48,441	0
22	Fodder	428	0	1,582	0	1,679	0
23	Coal and Coke	370	0	..	..	1,397	0
24	Animals living	1,546	0	..	..	3,650	4
25	Miscellaneous	9,995	34	9,223	0	1,01,502	0
	Total	..	..	..	..	3,48,684	11

NOTE — The value of exports during Jeth 2000 is lower than that for Baisakh 2000 but duty realised in Jeth 2000 is greater than in Baisakh 2000. This is mostly due to the defective system of recording export statistics by the Customs Department. Attempts will be made to get the system improved.

with that for the month of Baisakh 2000.

## INTRODUCTORY NOTE.

The publication of this monthly bulletin has been authorised by His Highness' Government *vide* Special Secretary's No. B-9/Misc/43, dated 19th May 1943. The statements recorded herein do not in any way convey Government pronouncements on the concerned topics.

The second issue of the bulletin marks an improvement over the last one since a few statements have been added and comparisons of statistical data with the previous month have been made. During the first year of its issue comparisons of statistics compiled each month will be made with the previous month and not with the corresponding month of the previous year, as it ought to be done. The latter is not possible since monthly records of the previous year are not obtainable. In this publication some of the statistics may be incomplete or provisional and will be revised on receipt of more complete or reliable data from the reporting authorities.

While the Department takes this opportunity of expressing its gratitude to those Government officers who have offered us unstinted co-operation and help in the compilation of the bulletin, we cannot help reminding others of the duty which they owe towards us. The plan of our work will remain incomplete as long as the latter will not supply the requisite data, intended to be incorporated in this publication.

*Note.*—Publication of Meteorological Reports has been allowed with the following limitations:—

- (i) Rainfall statistics to be incorporated with a lag of one week.
- (ii) Other Meteorological data to be given for isolated and scattered stations and not for the State as a whole.

## WEATHER AND CROP REPORTS.

*First Fortnight of Jeth, 2000.*

(i) Rains were reported from every district. They were very heavy particularly in the Southern District of Kashmir Province.

(ii) Agricultural operations—

Kashmir Province: Heavy rains interfered with the sowing of paddy seeds. Maize, pulses and ground-nuts were sown and vegetables transplanted.

Jammu Province: Wheat was being thrashed and land prepared for sowing of paddy and maize.

(iii) Prospect and probable out-turn of crops—

Kashmir Province: The condition of the standing crop was reported to be normal, but the rains damaged the oil-seed crop and cherry crop.

Jammu Province: The expected out-turn of crops in Kandi Illaqa was average and in irrigated tracts below the average.

(iv) Serious damage to crops: None reported excepting to cherries due to incessant rains.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Failure of pasturage or irrigation water: None reported.

(vii) Retail prices of food crops: The food crops were reported to retain their previous high level.

(viii) Public health: Reported satisfactory.

*Second Fortnight of Jeth, 2000.*

(i) Rainfall: Rains were reported throughout the districts.

(ii) Agricultural operations—

Kashmir Province: Vegetable seedlings were being transplanted, while turnips, peas etc, were being harvested for seed. Rape was harvested and paddy sown.

(iii) Prospect and probable out-turn of crops: The average out-turn from standing crops was reported to be good except for vegetables in the suburbs of Srinagar where high water level submerged the vegetable fields.

(iv) Damage to crops—

Kashmir Province: Rains interfered with early sowing of paddy. Vegetables were reported to be affected by cut-worms.

Jammu Province: None reported except in the case of Sugar cane which was attacked by Sugar cane top-borer.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Irrigation water and fodder: Reported sufficient.

(vii) Retail prices of food grains: These retained the high level of the previous fortnight.

(viii) Public health: Reported satisfactory.

(ix) Fruits and Vegetables: In Kashmir the straw-berry crop got exhausted. Early crop of cherries also finished during the fortnight. Green peas were being exported. The out-turn of standing crop (fruit) was expected to be good. Knol Khol, though damaged by rains, came in the market.

†Distinct from that of Jammu.

Sugar, Salt and Kerosene oil, being controlled commodities, are sold at Controlled rates, and are given in a separate statement.

Note—Prices prevalent during the 2nd halves of the months of Baisakh and Jeth have been taken into account.

The price level in the State on the whole stood at a higher level during Jeth 2000, while it had a tendency towards a fall in British

India. The former is chiefly due to

- (1) Withdrawal of Control Order in Jammu Province.
- (2) Exhaustion of the old stock aggravated by the cornering habits of the stockists.
- (3) Interference of incessant rains with agricultural operations.

JAMMU.

KASHMIR.

(a) includes same proportion as a unit and a deposit.

\*Includes large quantities of Puda and Dopost.

†Value of Jammu Silk only.

‡The value of Iranian Silk is paid to the Government of India and only reeling charges at Rs. 1,675 per ton of cocoons are credited to this Department

**NOTE.**—(i) Average quantity produced per maund of cocoons in Jammu was greater in Jeth than that of Paisakh while in Kashmir the conditions were different. This was probably due to the topographical and other conditions.

(ii) The total quantity of indigenous silk production was greater in Jammu than in Kashmir. There being greater demand for parachute cloth by the Supply Department Government of India, Iranian Silk production received a greater impetus in the latter Province.

**ABBREVIATIONS USED.**—S=Spinners. K=Knotters. C=Cooks. M=Murani Houses. Mac=Machinery attendants.

(2) Government Silk Weaving Factory, Rajbagh Srinagar.

Serial No.	Particulars of each Commodity.	Month.	Production (quantity).	Sale price.	Total sale proceeds.	No. of persons employed		Rate of wages.	REMARKS.
						(a) Office establishment.	(b) Wage-earners.		
1	Parachute Cloth	Jeth	11,802 yds.	This cloth being booked by the Government of India, is not available for open sale.	Processing charges only realized.	.. 23 .. 265	Rs. a. p.	Weavers	.. 0 1 6 per yard.
								Doublers and Winders	0 8 0 per yard a day.
								Twisters	.. 0 6 7 per day.
								Warpers	.. Re. 1 to Rs. 1-4-0 per day.
								Drafters	.. Annas 10 to annas 14 a day.
								Finishers	.. Annas 12 to Re. 1 a day.
								Cleaners	.. Annas 8 to annas 10 a day.
								Miscellaneous	.. Annas 8 to Rs. 1-4-0 a day according to nature of work.
2	Other fabrics	Baisakh	10,099 yds.	"	"	"	"		
		Jeth	103 "	Rs. 7-8-0, Rs. 6-10-0 and 4-12-0 per yard.	Rs. 20,987-11-6	..	..		
		Baisakh	1,471 "	"	Rs. 12,148-0-0	..	..		

NOTE.—The out-turn of parachute cloth during Jeth has increased while that of other fabrics has decreased, indicating greater demand for the former for war purpose. Sale proceeds from other fabrics during Jeth are much greater than those in the month of Baisakh even though the out-turn in the latter month is less.

Total		..	..	..	..	3,48,684	11

NOTE —The value of exports during Jeth 2000 is lower than that for Baisakh 2000 but duty realised in Jeth 2000 is greater than in Baisakh 2000. This is mostly due to the defective system of recording export statistics by the Customs Department. Attempts will be made to get the system improved.

with that for the month of Baisakh 2000.

### INTRODUCTORY NOTE.

The publication of this monthly bulletin has been authorised by His Highness' Government *vide* Special Secretary's No. B-9/Misc/43, dated 19th May 1943. The statements recorded herein do not in any way convey Government pronouncements on the concerned topics.

The second issue of the bulletin marks an improvement over the last one since a few statements have been added and comparisons of statistical data with the previous month have been made. During the first year of its issue comparisons of statistics compiled each month will be made with the previous month and not with the corresponding month of the previous year, as it ought to be done. The latter is not possible since monthly records of the previous year are not obtainable. In this publication some of the statistics may be incomplete or provisional and will be revised on receipt of more complete or reliable data from the reporting authorities.

While the Department takes this opportunity of expressing its gratitude to those Government officers who have offered us unstinted co-operation and help in the compilation of the bulletin, we cannot help reminding others of the duty which they owe towards us. The plan of our work will remain incomplete as long as the latter will not supply the requisite data, intended to be incorporated in this publication.

*Note.*—Publication of Meteorological Reports has been allowed with the following limitations:—

- (i) Rainfall statistics to be incorporated with a lag of one week.
- (ii) Other Meteorological data to be given for isolated and scattered stations and not for the State as a whole.

## WEATHER AND CROP REPORTS.

*First Fortnight of Jeth, 2000.*

(i) Rains were reported from every district. They were very heavy particularly in the Southern District of Kashmir Province.

(ii) Agricultural operations—

Kashmir Province: Heavy rains interfered with the sowing of paddy seeds. Maize, pulses and ground-nuts were sown and vegetables transplanted.

Jammu Province: Wheat was being thrashed and land prepared for sowing of paddy and maize.

(iii) Prospect and probable out-turn of crops—

Kashmir Province: The condition of the standing crop was reported to be normal, but the rains damaged the oil-seed crop and cherry crop.

Jammu Province: The expected out-turn of crops in Kandi Illaqa was average and in irrigated tracts below the average.

(iv) Serious damage to crops: None reported excepting to cherries due to incessant rains.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Failure of pasturage or irrigation water: None reported.

(vii) Retail prices of food crops: The food crops were reported to retain their previous high level.

(viii) Public health: Reported satisfactory.

*Second Fortnight of Jeth, 2000.*

(i) Rainfall: Rains were reported throughout the districts.

(ii) Agricultural operations—

Kashmir Province: Vegetable seedlings were being transplanted, while turnips, peas etc, were being harvested for seed. Rape was harvested and paddy sown.

(iii) Prospect and probable out-turn of crops: The average out-turn from standing crops was reported to be good except for vegetables in the suburbs of Srinagar where high water level submerged the vegetable fields.

(iv) Damage to crops—

Kashmir Province: Rains interfered with early sowing of paddy. Vegetables were reported to be affected by cut-worms.

Jammu Province: None reported except in the case of Sugar cane which was attacked by Sugar cane top-borer.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Irrigation water and fodder: Reported sufficient.

(vii) Retail prices of food grains: These retained the high level of the previous fortnight.

(viii) Public health: Reported satisfactory.

(ix) Fruits and Vegetables: In Kashmir the straw-berry crop got exhausted. Early crop of cherries also finished during the fortnight. Green peas were being exported. The out-turn of standing crop (fruit) was expected to be good. Knol Khol, though damaged by rains, came in the market.

*Price quotations of Chief Food grains at Srinagar and Jammu Markets for the month of Jeth 2000, as compared with Baisakh, 2000. Comparison with some of the important Stations in British India during the corresponding May-June 1943 has been drawn up.*

†Distinct from that of Jammu.

Sugar, Salt and Kerosene oil, being controlled commodities, are sold at Controlled rates, and are given in a separate statement.

NOTE—Prices prevalent during the 2nd halves of the months of Baisakh and Jeth have been taken into account.

The price level in the State on the whole stood at a higher level during Jeth 2000, while it had a tendency towards a fall in British

India.

The former is chiefly due to

- (1) Withdrawal of Control Order in Jammu Province.
- (2) Exhaustion of the old stock aggravated by the cornering habits of the stockists.
- (3) Interference of incessant rains with agricultural operations.

KASHMIR.										

(a) Includes sufficient proportion of Puda and Dopost.

\*Includes large quantities of Puda and Dopost.

†Value of Jammu Silk only.

£The value of Iranian Silk is paid to the Government of India and only reeling charges at Rs. 1,675 per ton of cocoons are credited to this Department

**NOTE.**—(i) Average quantity produced per maund of cocoons in Jammu was greater in Jeth than that of Paisakh while in Kashmir the conditions were different. This was probably due to the topographical and other conditions.

(ii) The total quantity of indigenous Silk production was greater in Jammu than in Kashmir. There, being greater demand for parachute cloth by the Supply Department Government of India, Iranian Silk production received a greater impetus in the latter Province.

**ABBREVIATIONS USED.**—S=Spinners. K=Knotters. C=Cooks. M=Murani Houses. Mac=Machinery attendants.

(2) Government Silk Weaving Factory, Rajbagh Srinagar.

Serial No	Particulars of each Commodity.	Month.	Production (quantity).	Sale price.	Total sale proceeds.	No. of persons employed (a) Office establishment. (b) Wage-earners.	Rate of wages.	R MARKS.
1	Parachute Cloth	Jeth	11,802 yds.	This cloth being booked by the Government of India, is not available for open sale.	Processing charges only realized.	(a) 23 (b) 265	Weavers .. 0 1 6 per yard. Dobblers and Winders 0 8 0 per yard a day. Twisters .. 0 6 7 per day. Warpers .. Re. 1 to Rs. 1-4-0 per day. Drafters .. Annas 10 to annas 14 a day. Finishers .. Annas 12 to Re. 1 a day. Cleaners .. Annas 8 to annas 10 a day. Miscellaneous .. Annas 8 to Rs. 1-4-0 a day according to nature of work.	
		Baisakh	10,099 yds.	"	"	"	"	
		Jeth	103 "	Rs. 7-8-0, Rs. 6-10-0 and 4-12-0 per yard.	Rs. 20,987-11-6	"	"	
		Baisakh	1,471 "	"	Rs. 12,148-0-0	"	"	
2	Other fabrics ..							

NOTE.—The out-turn of parachute cloth during Jeth has increased while that of other fabrics has decreased, indicating greater demand for the former for war purpose. Sale proceeds from other fabrics during Jeth are much greater than those in the month of Baisakh even though the out-turn in the latter month is less. This is probably due to the realization of outstanding bills.

NOTE —The value of exports during Jeth 2000 is lower than that for Baisakh 2000 but duty realised in Jeth 2000 is greater than in Baisakh 2000. This is mostly due to the defective system of recording export statistics by the Customs Department. Attempts will be made to get the system improved.

with that for the month of Baisakh 2000.

## INTRODUCTORY NOTE.

The publication of this monthly bulletin has been authorised by His Highness' Government *vide* Special Secretary's No. B-9/Misc/43, dated 19th May 1943. The statements recorded herein do not in any way convey Government pronouncements on the concerned topics.

The second issue of the bulletin marks an improvement over the last one since a few statements have been added and comparisons of statistical data with the previous month have been made. During the first year of its issue comparisons of statistics compiled each month will be made with the previous month and not with the corresponding month of the previous year, as it ought to be done. The latter is not possible since monthly records of the previous year are not obtainable. In this publication some of the statistics may be incomplete or provisional and will be revised on receipt of more complete or reliable data from the reporting authorities.

While the Department takes this opportunity of expressing its gratitude to those Government officers who have offered us unstinted co-operation and help in the compilation of the bulletin, we cannot help reminding others of the duty which they owe towards us. The plan of our work will remain incomplete as long as the latter will not supply the requisite data, intended to be incorporated in this publication.

*Note.*—Publication of Meteorological Reports has been allowed with the following limitations:—

- (i) Rainfall statistics to be incorporated with a lag of one week.
- (ii) Other Meteorological data to be given for isolated and scattered stations and not for the State as a whole.

## WEATHER AND CROP REPORTS.

*First Fortnight of Jeth, 2000.*

(i) Rains were reported from every district. They were very heavy particularly in the Southern District of Kashmir Province.

(ii) Agricultural operations—

Kashmir Province: Heavy rains interfered with the sowing of paddy seeds. Maize, pulses and ground-nuts were sown and vegetables transplanted.

Jammu Province: Wheat was being thrashed and land prepared for sowing of paddy and maize.

(iii) Prospect and probable out-turn of crops—

Kashmir Province: The condition of the standing crop was reported to be normal, but the rains damaged the oil-seed crop and cherry crop.

Jammu Province: The expected out-turn of crops in Kandi Illaqa was average and in irrigated tracts below the average.

(iv) Serious damage to crops: None reported excepting to cherries due to incessant rains.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Failure of pasturage or irrigation water: None reported.

(vii) Retail prices of food crops: The food crops were reported to retain their previous high level.

(viii) Public health: Reported satisfactory.

*Second Fortnight of Jeth, 2000.*

(i) Rainfall: Rains were reported throughout the districts.

(ii) Agricultural operations—

Kashmir Province: Vegetable seedlings were being transplanted, while turnips, peas etc, were being harvested for seed. Rape was harvested and paddy sown.

(iii) Prospect and probable out-turn of crops: The average out-turn from standing crops was reported to be good except for vegetables in the suburbs of Srinagar where high water level submerged the vegetable fields.

(iv) Damage to crops—

Kashmir Province: Rains interfered with early sowing of paddy. Vegetables were reported to be affected by cut-worms.

Jammu Province: None reported except in the case of Sugar cane which was attacked by Sugar cane top-borer.

(v) Condition of agricultural livestock: Reported satisfactory.

(vi) Irrigation water and fodder: Reported sufficient.

(vii) Retail prices of food grains: These retained the high level of the previous fortnight.

(viii) Public health: Reported satisfactory.

(ix) Fruits and Vegetables: In Kashmir the straw-berry crop got exhausted. Early crop of cherries also finished during the fortnight. Green peas were being exported. The cut-turn of standing crop (fruit) was expected to be good. Knol Khol, though damaged by rains, came in the market.

*Price quotations of Chief Food grains at Srinagar and Jammu Markets for the month of Jeth 2000, as compared with Baisakh, 2000. Comparison with some of the important Stations in British India during the corresponding May-June 1943 has been drawn up.*

†Distinct from that of Jammu.

Sugar, Salt and Kerosene oil, being controlled commodities, are sold at Controlled rates, and are given in a separate statement.

NOTE—Prices prevalent during the 2nd halves of the months of Baisakh and Jeth have been taken into account.

The price level in the State on the whole stood at a higher level during Jeth 2000, while it had a tendency towards a fall in British

India. The former is chiefly due to

- (1) Withdrawal of Control Order in Jammu Province.
- (2) Exhaustion of the old stock aggravated by the cornering habits of the stockists.
- (3) Interference of incessant rains with agricultural operations.

KASHMIR.										

(a) Includes sufficient proportion of Puda and Dopost.

\*Includes large quantities of Puda and Dopost.

†Value of Jammu Silk only.

£The value of Iranian Silk is paid to the Government of India and only reeling charges at Rs. 1,675 per ton of cocoons are credited to this Department

**NOTE.**—(i) Average quantity produced per maund of cocoons in Jammu was greater in Jeth than that of Paisakh while in Kashmir the conditions were different. This was probably due to the topographical and other conditions.

(ii) The total quantity of indigenous silk production was greater in Jammu than in Kashmir. There being greater demand for parachute cloth by the Supply Department Government of India, Iranian Silk production received a greater impetus in the latter Province.

**ABBREVIATIONS USED.**—S=Spinners. K=Knotters. C=Cooks. M=Murani Houses. Mac=Machinery attendants.

(2) Government Silk Weaving Factory, Rajbagh Srinagar.

Serial No	Particulars of each Commodity.	Month.	Production (quantity).	Sale price.	Total sale proceeds.	No. of persons employed		Rate of wages.	R ARKS.
						(a) Office establishment.	(b) Wage-earners.		

1	Parachute Cloth	Jeth	11,802 yds.	This cloth being booked by the Government of India, is not available for open sale.	Processing charges only realized.	.. 23 .. 265	Rs. a. p.	Weavers	.. 0 1 6 per yard.
								Doublers and Winders	0 8 0 per yard a day.
								Twisters	.. 0 6 7 per day.
								Warpers	.. Re. 1 to Rs. 1-4-0 per day.
								Drafters	.. Annas 10 to annas 14 a day.
		Baisakh	10,099 yds.	"	"	"	"	Finishers	.. Annas 12 to Re. 1 a day.
								Cleaners	.. Annas 8 to annas 10 a day.
								Miscellaneous	.. Annas 8 to Rs. 1-4-0 a day according to nature of work.
								"	"
								"	"
2	Other fabrics	Jeth	103 "	Rs. 7-8-0, Rs. 6-10-0 and 4-12-0 per yard.	Rs. 20,987-11-6	..	..		
		Baisakh	1,471 "	"	Rs. 12,148-0-0	..	..		

NOTE.—The out-turn of parachute cloth during Jeth has increased while that of other fabrics has decreased, indicating greater demand for the former for war purpose. Sale proceeds from other fabrics during Jeth are much greater than those in the month of Baisakh even though the out-turn in the latter month is less. This is probably due to the realization of outstanding bills.

	Total	..	..	..	..	3,48,684 11	58,432 0

NOTE — The value of exports during Jeth 2000 is lower than that for Baisakh 2000 but duty realised in Jeth 2000 is greater than in Baisakh 2000. This is mostly due to the defective system of recording export statistics by the Customs Department. Attempts will be made to get the system improved.

with that for the month of Baisakh 2000.
